

Antifreeze 30

Nitrite-, phosphate-, amine- & silicate-free

Antifreeze 30 a premium radiator protection agent. This radiator protection agent utilises so-called OAT technology. Organic salts are responsible for protecting against radiator corrosion.

Appearance: pink

Suitable for lifetime filling in grey cast iron and all-aluminium engines. Provides year-round protection against frost, corrosion damage and limescale build-up. Increases the boiling point, maintains the cooling system and add-on parts. Radiator protection SF30 G12+ in OAT technology for all vehicles for which silicate-free products are prescribed. Tailored to the requirements of leading car manufacturers.

Spec:

Porsche/Audi/VW/Seat/Skoda TL 774 F, Mercedes MB 325.3, Ford ESE M97B49-A, Renault 41-01-00, Ford WSS-M97B44-D, Chrysler MS 9176, Ford ESD M97 B49- A, VOLVO (Reg. NDeutz/MWN 0199-2091 2 Auflage (C.W.) o 260), Ford ESD M97 B49-A, OPEL GM QL 130100, John Deere H 24 B1 und C1

Antifreeze	Water	frost protection
1 Part	1 Part	-37°C
1 Part	1,5 Part	-26°C
1 Part	2 Parts	-17°C

The coolant additive content should be at least 33%, as corrosion protection cannot be guaranteed below this level.

ingredients: Monoethylenglykol

Safety: See safety data sheet

Store in a cool, well-ventilated place. For further information on health, safety and environmental protection, see safety data sheet.
